- Viola and Allie both are graduate students.
- Viola says BASH is a group combating sexual harassment.
- Viola says BASH works with other organizations and many have publicly endorsed BASH also.
- Viola says BASH became active due to the Pieterberg case, this was an incident where Professor Pieterberg was claimed to have sexually harassed female students and was not guilty for it, he only needed to pay a fine.
- Viola says this case shows there is no justice for survivors.
- Viola says our platform is to immediate removal of all serial offenders, clarification and specification of UC Title IX policy and its application, and to have a democratic community oversight board.
- Viola says faculty, staff, and administrators who commit multiple acts of sexual violence should be removed from the campus.
- Viola says Pieterberg is teaching 2 classes this quarter and there was no transparency or justice in his case.
- Viola says UCLA had to pay very expensive fines in regards to this case and that is not fair to UCLA to have to do so.
- Viola says USAC can endorse in our platform or spread the word to everyone about BASH and our petition against Pieterberg.
- Viola says last week we had a teaching/public discussion about alternative ways to approach issues like this.
- Viola says our next steps are to reach out to GSA, have events, demonstrate our dissent, and do magazine/newspaper interviews.
- Siegel says thank you so much for being here and we are really excited to see the resolution that you will bring next week.
- Siegel says thank you to Lee for this and for her help.
- Chowdhury says there are many protests about this issue and they reallocated his space for his classroom for safety, how do you hope this platform will play out considering how much protection he has gotten from the school?
- Allie says we are trying really hard to get a lot of support from undergraduate organizations since they are listened to the most from administration.
- Allie says we are trying to target the higher positions of administration since he is unfortunately so protected.
- Viola says we want Title 9 to address this issue directly.

- Sharma says in regards to removing those who sexually harass others, does this include students?
- Viola says our presentation does not say students, however, we are aware that there is a high rape culture among students so we are working on that also.
- Viola says our platform so far is not there, but if you think we should go there then I am on board.
- Sharma asks is that on the resolution?
- Viola says we are currently writing the resolution.

- Andrew says if you have any questions please reach out.
- Siegel says thank you and his director Jack Woe has been working closely with Dashew and we appreciate that.
- Sharma says how are you going over AP540?
- Andrew says specifically an international student is someone who is here learning on visa.
- Andrew says we are not experts in that area, in the sense of the legalities.

-Sands says I hope we can do something more institutional for international students, it was shocking to hear that many international students did not know that they could vote for student elections.

-Andrew says we are definitely interested in adding language and content for student leaders and work on campaigns to get the message out.

-Chowdhury says he is meeting with Amy this week because we are holding a few events this quarter to get student affairs to be more politically active and one event next quarter we plan to have is an Olympic style event from different cultural groups to have a good mix, would you have a database or something with those listed?

D. USAC Measure S Resolution – Rafi Sands, Danny Siegel, Sabrina Zeigler, Sandra Rhee

- Sands says Measure S proposes creating a moratorium on general plan amendments for buildings and other various structures in the city of Los Angeles, essentially stopping all new housing construction.
- Siegel says Measure S leads to greater sprawl, limiting the development of more compact communities and therefore limiting the use of public transit, cycling and walking.
- Zeigler says this initiative will lead to more reliance on the automobile, leading to more pollution, carbon emissions, and traffic in an already congested city.
- Rhee says in stopping all new housing construction, Measure S severely limits building of new affordable housing, which will reduce the overall supply of housing, reducing the amount of middle-income housing.
- Sands says by preventing affordable housing from being built, there is a higher probability of increasing homelessness in Los Angeles.
- Siegel says Los Angeles' slow growing economy, without housing construction projects, would lose thousands of jobs in the construction and manufacturing industry, as well as workplaces that would not be built if this law passes.
- Zeigler says by limiting available housing, Los Angeles' high rents and housing costs will continue to increase, forcing citizens to find housing outside of the city, in turn creating more congestion and traffic.
- Rhee says Measure S will stop all new housing construction and additions in Westwood by capping all apartment sizing to a maximum of three stories high, forcing prices and congestion to increase.
- Sands says with instruction from Governor Jerry Brown and University of California President Janet Napolitano, UCLA must increase its intake of admitted students, which means more students must find available and affordable housing.
- Siegel says there is a need for availability for additional housing in Westwood that is convenient and accommodates an increasing student population.
- Zeigler says with limited space already, Westwood cannot afford to halt construction of additional apartments and complexes.

- Rhee says voting no on Measure S has the endorsement of Los Angeles Mayor Eric Garcetti, the Los Angeles County Democratic Party, and the Republican Party of Los Angeles County.
- Sands says LET IT BE RESOLVED, that the USAC supports making off campus housing more easily accessible and affordable in the Westwood area, something that will not occur if Measure S is passed.
- Siegel says LET IT FURTHER BE RESOLVED, that the USAC is against the passage of Measure S in Los Angeles County's Municipal and Special Elections on March 7, 2017.
- Sharma asks do you have numbers?
- Sands says we can put in numbers from economic forecasts.
- Sharma says what if you add how much costs for living are right now and how infrastructure in Westwood right now to make it more concrete like citing sources.
- Zeigler says we can do that, but it is tricky because students as a whole live in North village so that makes it tough.
- Sharma says it would just make it more concrete with numbers.
- Chowdhury says there should be a line there where gentrification will be avoided.
- Geller says if you have citations where someone else has said this will happen that would be great rather than you as a council predicting these outcomes.
- Sands agrees.

- Danielle says week 5 campus campaign begins and actual debates will happen.
- Danielle says voting ends on Friday May 12.
- Zeigler moves to approve the election calendar for 2017.
- Zeigler says the only issue she has is last year elections ended week 6 and then you cut into week 10 to get a staff together which causes chaos so maybe have week 5 election week, so move it all up one week earlier.
- Danielle says she had a week 5 calendar and presented it realizing my.ucla would not allow this so it was not possible so it has to be week 6.
- Zeigler asks is this date publicized already?
- Daneille says yes.
- Siegel for results does it say 5pm?
- Danielle says yes.
- Siegel asks having debates on Friday nights is on a Jewish holiday, is that date flexible?
- Danielle says we went back and forth and voted on Friday and we decided to choose to accommodate commuter students.
- Rafalian says a lot of commuter students do not come on Fridays, so maybe move it to a Thursday night?
- Sharma says so happy you thought about commuter students, but there are Friday evening classes!
- Mohankumar says if candidates could not make endorsements on debates, could you go into detail about that?
- Danielle says we are not sure about offering a proxy, but we will cross that bridge when we get there.
- Dameron says expense accounts should be released before hand because last year was not that smooth and for transparency.
- Danielle says in the election code it says expense accounts need to be done on voting day, not before.
- Dameron says last year it was due Thursday before voting, do you know where this code is?
- Danielle says it for sure says it in there so I can find it for you later.
- Siegel says would it be possible to look into Thursday night debates?
- Danielle says can we approve the rest of it to book rooms?
- Zeigler says we can do that or you can amend it right now and then we can approve the amended calendar.
- Danielle says we need to speak with our team so right now lets vote on the debates.
- Dameron says he found under article 9 the expense account will be due on the account of the election board chairperson on a date designated by this person.
- Danielle says it is for sure in there I just need to look into it.
- Geller says since you are changing the code tonight, then just change it.
- Zeigler says SRC did not meet with the election board and we will vote next week on the changes.
- Danielle says we do not need to meet with SRC so we need to finalize these as soon as possible.
- Siegel asks if council would like to approve the rest and bar the others?

- Zeigler says the deadline for expense forms should be at a time during the election week, so we can change the date to be earlier.
- Danielle says not tonight, but yes we can change that.
- Sands says for candidates who are uncontested there is no reason for them to show up to debates and that is problematic, everyone needs to show up, so keep that in mind.
- Zeigler says last year everyone who was uncontested showed up.
- Zeigler moves to approve the 2017 election board calendar, but barring candidate debates. Sharma seconds.
- Geller says I thought you were eliminating the dates for expense accounts.
- Dameron says he would like to go over this with e-board so I am not sure how to go with this.

- Zeigler says you will need to come back for this change.
- Danielle says I am fine with barring the expense accounts.

- Danielle says we explained what we changed; it was mainly grammatical changes such as page numbers, punctuation, alignment, etc.
- Danielle says we amended the write-in candidate's portion on page 16 to clarify that you need to be an eligible candidate to be a write-in candidate.
- Danielle says we do not use paper ballots and we are not comfortable publishing anything anonymously so write-in candidates work by being eligible.
- Danielle says page 33 we amended the ballot proposition to make clear that they will get the same amount of money as a candidate.
- Siegel says why can they spend the same amount?
- Danielle says it was part of the election code so that is up for debate.
- Sharma asks what was the difference between executive member and non-executive members?
- Danielle says it does not specify so that is up for discussion with e-board.
- Danielle says she cleaned it up more than changing it entirely.
- Siegel says based off of last years cycle and spending limits for referenda, do we want to think about giving referenda a different spending cap?
- Siegel says do we feel comfortable to referenda to get the same amount as a candidate?
- Sharma says in the election code it says a referendum is not part of slates correct?
- Zeigler says she is against that.
- Dameron says after seeing last year with 2 referenda passing more than 60% vote it is not necessary.
- Sharma says is there any way we can reevaluate this funding?
- Siegel says spending limits were established 2 years ago from council, for us to decide that right now might not be a good idea.
- Danielle says this is reevaluated every 3 years so next year it will happen.
- Siegel says creating a focus group sounds like a good idea to get their opinions.
- Sharma says if you want to head that then go for it.

- Zeigler moves to approve the election code as amended. Dameron seconds.
9-0-0 vote the election code has been approved as amended.
- Danielle asks for a vote for Thursday date change and it was 9.
- Danielle says election code changes work by us bringing it to you, so shoot me an email and we are meeting with SRC so if they make changes we will try to present them next week.
- Zeigler says the main thing for election code is taking out the voting week wording so that you can set a date for expenses.
