IV. Public Comment

Velazquez
- Radha Patel: “Hi everyone, Happy Week 3. This is Radha, the CALPIRG chapter chair. I just wanted to come on here and give an update on what we have been doing. So tomorrow, we are having a big campaign kickoff meeting. We spent the last two days calling through a list of 900 names of folks who want to get involved with us. As of right now we have 250 people who have said yes to coming which is really awesome. We are starting to call as we speak and after this week we will be transitioning to our funding drive. We are funded by students who pledge to add the $10 CALPIRG activities fee to their tuition. This is what gives us the political power, resources and training to work on all of our activities and win. Our goal will be to sign up 1,000 new members to be on track to have 10% of the undergrad population be pledging members. The threshold that we have to hit per our contract with the university. I am very excited to get more students involved and make a change and make a difference on fighting climate change, college affordability, and public health. Thank you all.”

- Public comment concluded at 7:09pm.
- Public comment reopened at 7:10pm.

- Alexia Andrikopolus: “Hello, I also just want to say that as an out-of-state student I have had to change my flight and in doing that it incurred a monetary cost that I normally would have had and also in that time zone I had to make sure the flights went around my classes. So that was just another challenge I encountered as an out of state student. Anyway, thank you.”

- Public comment concluded at 7:11pm.

VI. Special Presentations

Impact of COVID-19 Policies on Out of State Students

- External Vice President: Zoya Mulgi
- President: Sakshi Joglekar
- Two Surveys with Out of State Students:
  1. Have you had to reschedule your flight/travel plans due to the online transition?
     - 89.3% responded yes, 11.7% responded no
  2. Did you have to pay a fee to reschedule?
     - 64.8% responded yes, 35.2% responded no
- Major Issues Determined by Respondents/OS Students:
  1. Move-in Process For On Campus Housing (+isolation)
     - Flight times did not sufficiently coincide with move-in times for on campus housing and little flexibility meant students had to get tested 2-3 times before even moving in to fit into the time frame + some had to change flights or book hotel rooms to accommodate.
     - Ex. “My move in appointment was completely booked, but I couldn't afford to spend the night in a hotel.”
  2. Timeline For Transition Back To Campus
     - Back and forth on guidelines means students came to campus before 1/9 like suggested, went back home when guidelines changed again till 1/28, have to return again because some class began in person instruction.
  3. Requirements To Return To Westwood
     - Students don’t/did not have equal access to testing materials at home (required to spend upwards of $100 for testing procedures before coming to UCLA.
     - “It’s really difficult for students in some states to have adequate access to testing or vaccination. It can put a lot of pressure for students who are away from the resources of urban centers to access these requirements sometimes, and that’s something the university should take into consideration.”
- Additional Concerns/ Solutions Proposed by Students:
Housing policies should NEVER change with less than 3 weeks in advance, even in dire emergencies. Housing is a basic human right, not a product to be manipulated at the wishes of the administrators.

- I would prefer to stay online throughout the quarter. It allows both disabled students and students who are high risk to thoroughly prepare and reduce the risk of needing to travel. The risk of infection goes up as the date for coming back to campus keeps being changed at the last minute. It only hurts students more to wain back and forth. Online learning allows for safe accessibility that cannot exist during COVID on campus.

- Enforced and mandatory vaccination for all students.
- Refunds for on campus facilities fee.

- The Academic Senate is pushing professors to choose whether they will be online or remote, Megan is following up to see what else can be done to push professors to provide hybrid options.
- Also we will be having a Covid town hall this coming Thursday, Q/A that is three pages, will be sending to administration in the morning
- Within that I am also hoping we will get a straight answer, told administration they should tell students by Thursday on their decision for in person or remote, but they said they most likely won't have an answer by that date
- I will keep pushing this issue but frustrating about the lack of transparency from administration.
- Working to build a branch within UCLA, pushing administration about the Olympics and how it will affect housing in the future, building models for the future, want to make sure students can hold administration accountable especially because of the housing crisis that might arise as we approach the Olympics.
