IV. Public Comment
   - Clara Castronovo: “Hello, my name is Clara Castronovo. I am the newly elected chapter chair of CALPIRG Students at UCLA. A little bit about me. I am a second year Sociology major and I care a lot about fighting social injustices, including environmental issues. I currently run CALPIRG’s Beyond Plastic Campaign. You might remember me from working on the Single-Use Plastics Resolution during Week 1 so thank you so much for doing that. And if you hadn’t heard yet, the board of supervisors did pass the ordinance so thank you so much for your contribution, we really appreciate it. Like I said, I am CALPIRG’s new chapter chair going into next year and I really wanted to do that to make the most impact as I possibly could. I really believe in the potential of our chapter to continue to make a difference for the public interest like with our recent plastic swing that you guys helped out with so I really wanted to lead our organization in doing that. I also wanted to mention that we are working to pass a bill called AB2624 next Tuesday on the 26th. That would require community colleges, cal state universities and the rest of the UC’s to present estimate cost of course materials on online course schedules so that students can know the cost of their textbooks and other additional fees for their class before enrolling and will help enable students to know the overall cost of their classes so that they can plan their classes accordingly and get affordable materials before the first day of class. If you are a transfer student or you know any transfer students who would be interested, you voice will have a really big impact on the bill’s decision so if you are interested in voicing support I am going to put a google form into the chat and I would really appreciate it if you could fill that out. Our camping coordinator for the textbook campaign, Radha will get in touch with you right away about that. Thank you so much for having me and I look forward to working with you in the future.”

      - By vote of 10-0-0, the motion passes and the minutes from 4/12/22 are approved.

   - Public comment is closed at 7:09pm.

Update of Sole Registration Requirements
- First change is the shared office-based section. I am going to be requiring that all organizations complete and post a shared office space agreement and that will be done with the OSAC chairperson and a representative from each organization every year to help foster a relationship between the organizations in the office. It will basically be a roommate agreement where you will say who we are giving office access to and making a schedule each quarter.
- The next change is the locker space section. In the past we have had a lot of issues with organizations storing their stuff in the locker room but not in their respective lockers so just adding something that says if it is found that you are storing items outside of your locker, the OSAC chairperson will send your organization an email warning and if the items are still there within two to three weeks they will be thrown away. If these items are on the floor it makes the locker room inaccessible to move around and access some of the other lockers.
- Finally, there are a lot of medical organizations, health organizations, who store stuff in the locker that have been hazardous medical items or materials that have been stored in the office that are dangerous whether they are sharp or stored incorrectly. So I added this to make it clear.
- Lastly, under audit provisions, just making sure that the space office-based agreement is posted in all of the shared offices along with the weekly schedule.

    2. How do the many intersecting identities of LGBTQ students at UCLA impact the unique needs of the population?

- Community Cultural Wealth as a Framework:
  - Students of color struggle while navigating campus environments due to deficits in our institutions, instead of inherent issues in the students (Yosso, 2005)
  - All cultural wealth- as helf by students of color, women and non-binary peopl, people of low socioeconomic status, LGBTQ+ students and more- is considered legitimate (Delgado Bernal and Villalpando, 2002)
  - QTBIPOC students that were interviewed for this study are considered the “experts of their own experiences.”

- Recruitment and Participation:
  - Conducted interviews and focus groups- semi structured, aimed at capturing the range of experiences of current QTBIPOC students at UCLA (2019-2020, interviewed 22 students)(2020-2021, interviewed 29 students)

VII. Appointments

VIII. Officer Reports

A. President
- Velazquez
- This past week, we had our Future Student Leaders of Color Conference and we were able to get out a lot of amazing speakers. I want to especially thank Passa, Tay and Hailey for logging on and being a part of the panel.
- In the Covid Response and Recovery Task Force meetings and case management meetings, there has been a lot of discussion about returning the mass mandate as cases are on the rise and it is estimated that because of musical festivals such as Coachella, there might be a rise in cases.
- My office will be partnering with the Academic Senate to make sure that students are well informed through our Instagram and we will be posting infographics later this week.
- I also had a meeting with UCOP and the council of presidents and we discussed the Governor’s proposed budget and CS70 and UC Climate and Sustainability goals as well as mentorship standards for both graduates and undergraduates. The key takeaways were that President Drake said that he understood that students are concerned about how students are going to be able to manage the influx of new enrollment and he said that he would definitely emphasize focusing on accessibility and access across the board and as well as the need to be affordable to offer affordable spots.
- This week we had Vice Chancellors come and discuss their role in threat communications on campus and their role when it comes to threats on campus. We discussed how to respond to non-immediate and non-physical threats on campus like threats that were made in the Asain department during winter quarter. Let us know of the capacity and how it works more proactively than reactively regarding specific threats. WE discussed how USAC can work alongside to provide community care moving forward.

I can send that in SLACK.
- We just reserved the Bruin Bear statue for a destressing midterm event on Thursday of Week 5 and then I am meeting with the ECRT team to further discuss how we can work with them on the housing relief award for Bruins facing housing insecurity.
- I am in the process of reviewing the campus safety alliance bylaws to see if there are any bylaw changes that can be made before the end of the term.

We just released our transparency report for Winter quarter and that is up on our Instagram.

USAC Elections Calendar
- Two candidates had reached out to Palmer regarding conflicts with the voting schedule happening on the weekend. Both individuals were Orthodox Jewish and felt that to accommodate them they would like voting to stop on Friday-Sunday and resume on Monday.
- Promise mentions that since campaigning has been open for a week already and it has happened over a weekend already, changing it in the middle would not be equitable.
- Passa agrees with Promise and states that the weekend may be the only time some people are available to vote or campaign. The schedule of voting has been posted for months now and changing it would decrease accessibility.
- Palmer agrees to not change anything moving forward.

Amendment to FiCom Guidelines
- Updating link to a new website because the old one crashed.
- Promise motions to approve the amendment to the FiCom Guidelines, Emily seconds.
- By vote of 10-0-0, the motion passes and the amendment to the FiCom guidelines is approved.
