IV. Public Comment
- Jeffry Umana Munoz: “Everyone, just really quickly. My name is Jeffrey, he/him pronouns. I am coming tonight on behalf of the AMNO Coalition. I just wanted to come and share some statements from the coalitions on some recent developments we have with how we feel towards USAC’s approach and contacting and outreaching to us with regards to the upcoming discussion on checks. Needless to say, we are really upset with the way that it has been going. The communication has been confusing to say the least and at times really dangerous for our coalition space. The fact that we have different council members reaching out to individual coalition orgs literally led to orgs last night getting into an argument with each other and accusing each other of very shady practices when it turned out that the miscommunication was on the part of USAC. I am just here to say that that cannot happen. Our stability cannot be threatened by a lack of consistency among USAC to outreach correctly. We are at a point where you know if it keeps happening this way, we are just not going to communicate or collaborate with you folks. We just can't have it in a way where we have even our alumni being outreached to. These folks have graduated and moved on and I am not going to hash our individual details about anything but I just wanted to express just a general sentiment of uncomfortability with the way that things are moving forward to help communications. I just linked in the chat the one place where the council communicated with the coalition. The coalition does not have any official reps because we are a coalition governed by consensus so we never really have one person speaking for all of us so when we do it is cause something
is going on in the moment so we want that any time that council needs to reach out to the coalition for something that involves all of our orgs and all of council for it to go through this group me that way the communication happens in front of all council members and in front of all the voting reps of the 10 orgs of the coalition so that everyone is aware and everyone is on the same page. We just also ask that you all centralize your communication before reaching out. Come to a consensus with you all and then maybe have one of your folks reach out to us and do it in a limited way so that our members aren’t also being spammed with messages and then I think the only other thing that I wanted to add is that you know use this for when you need to reach out to all of us but of course if an individual commissioner needs to collaborate with a specific work please feel free to reach out to them individually. The last thing I will say is that our orgs have been working really hard to try and meet the deadlines that USAC has set for us. As you know we have agreed so far the August 9th date where we will come in and give you a special presentation to give you all the history training and then we will submit all of our statements to you by next Tuesday. Most of our organizations are done today. We actually met and voted on a few of them. They are wrapping up in their final draft phases and we are just voting on our final coalition-wide one. You will be receiving 10 statements. 9 from individual orgs and one on behalf of the entire coalition. I will email those over to you and link them in the group to me. I will also answer those pending requests right now for the group me but that is all on my part. We will see the coalition in two weeks. Thanks.”

L. **Financial Supports Commissioner** Broukhim

M. **Student Wellness Commissioner** Written, Majer

N. **Transfer Student Representative** Moreno

- I was able to meet with staff from the TSC. Since our last meeting, I was able to go with the assistant director to speak with the current NSA on the hill because we are currency working with transfer students and we are just giving a presentation.
- I was able to go and give my first hand experience on what it means to be a transfer student and the advocacy that they are seeking for and what they are expecting of me and how these NSA students can really help in the aspect of addressing housing and to help answer questions that they are going to be bombarded with. It is not really their responsibility to find solutions, it is just addressing like this is where they are coming from and basically how to help them and prepare them for the move to campus.
- I spoke with Daniella this morning and addressed the need for me to appoint individuals to the Academic Senate. I am in charge of six appointees and so I will be working with the TSC and other corners of campus to fill these spots.

O. **International Student Representative** Nath

P. **Administrative Representatives** O’Connor, Luna, Alexander, Solomon, Moran, Archie II

- Jessica: “I don't really have any updates for services but you all know in like about a week or so we will be in the new fiscal year for August 1st so what I will probably so is try to send around a poll or something like that to get your availability to meet with our team and student government accounting to help you set up your office accounts for your funds for the year. So just look out for that and respond as soon as possible so we can start scheduling you all for those meetings and we can go into more detail with your individual budgets and make sure we help you put the funds in different line items where they need to be especially if your office allocates funding to student orgs. We want to make
sure that all of that gets set up properly so that you can start allocation funds and then the second thing is if you do have a funding source within your office that you oversee make sure your team is looking over the guidelines and see if there are any updates you need to make for the upcoming year. These should be brought before council and approved before you open your funds for groups to apply to so just make sure that is all up to date. If you need any help with that, Archie and I are happy to meet and you know support you where we can.”

- Orlando: “Hello everyone, hope you are enjoying your summer. Just one update is that don’t forget that the Community Activities Commission Community Service Annual Fund is due August 18th. There will be a series of workshops assistance but also please remember that all registered groups must meet with their SOLE advisor prior to submission of CAC so make sure that those of you that are part of it or work with tomse to make sure those signatories sign.

- Patricia: “Hi everyone, no major updates, we have our orientation still. We are on week three right now and they are actually in the ballroom as we speak doing fun activities in the evening and we have a weekly orientation for the next I believe seven weeks. We have a USAC table so if you guys do want to promote USAC we have a space available for you. Just let me know and I am just looking forward to getting through the summer.

IX. Old Business

X. New Business

A. 2021-2022 AY BBRC Surplus Allocation*

   - Daniela: “Hi folks just to give you some background. Last year, USAC voted to allocate surplus funding to the BBRC in support of their programming for this upcoming school year. When that happened last year, we housed those funds under AAC’s account just to ensure that it wouldn’t roll over into surplus at the end of the school year and so after communication with Jessica and other folks from SGA as well as Geranimo from ASU. We talked about and realized that it is very important that before this fiscal year, we vote to restrict that surplus gets restricted under the AAC account to ensure that it would not just be rolling over into surplus for the upcoming school year so I would appreciate if you all would help with that tonight which is why it is listed as an action item.”

   - Eliana moves to approve the allocation and restrict 180,000 for BBRC, Alicia seconds.

   - By vote of 11-0-0, the motion passes.

B. A Resolution to Support the Creation of An Asynchronous Election Day

C. Discussion Item: Transparency Between Admin and USAC

   - Eliana: “Hi everyone, so there has been a talk about promoting some transparency so a few things. First of all, it sounds like the administration was trying to have us vote on the CPO checks tonight even though we did not even have time to put that on our agenda. So I would like to say please do not do that stuff again. There have also been various issues in terms of our appointments that have not been communicated well. So if anyone wants to speak about that?”

   - My-Lan: “Basically for appointments just for full transparency for everyone, the system was kind of weird. The length was not the proper one to apply to the system that we have now, it was for the system for the previous year and now we need to download the responses and that is why we haven’t been able to review any applications so far for students who have applied to the appointments. We are working with Hessica and Kathy so that we can get those responses and then review them for students to get appointed to. I am super sorry for anyone who has applied to appointments because there is something wrong with the system but we still need to work it out.”

   - Eliana: “The other thing administration is talking about and it is not specific to any particular office but if it is a general issue and we are all going to be voting on it, then that communication should probably be with everybody on council. Anyone else have anything to say?”

   - Phoebe: “I was just a little curious about what the really hard deadlines are for council for the rest of the summer and like part of fall. I feel like a lot of decisions just get thrown at us really quickly, an example
being the budget. It was given to us during one council meeting and then I know that we have two weeks but like with summer, I feel like two weeks is hard to schedule among all of us because we are all in such different places so that as a pretty quick turnaround despite it being two weeks and so for future large decisions, I think it would be good for us to get the deadlines moving forward so that we can prepare more.

- Eliana: “Thank you Phoebe, I also want to suggest that it might actually be worth it for USAC to get the chance to write budgets in the future. I know referendum fees are predesignated by the students but I think everything else could reasonably be set up because we are the ones with the responsibility and the decisions that need to be made in regards to the budget.”

XI. Adjournment*
- Carl adjourns the meeting at 7:44pm.
