## **IV. Public Comment**

King

- Clara: "Hi everyone, I am Clara, the CALPIRG Chapter Chair here at UCLA. I am just here to give a quick update on what we are doing right now. Last week we launched all of the campaigns that we are working on right now in the largest meeting we have of the year. CALPIRG actually has chapters all over the country. We have chapters in 26 different states and out of all the kickoff meetings in the country, UCLA's was the biggest so woo hoo! This was a really successful recruitment drive and we are really excited to get started with all of our volunteers. Last week we hosted a beach cleanup at Venice Beach to raise awareness about plastic pollution and make a statement to the City Council to ban styrofoam. We had 20 students volunteering and we gathered over a 1000 pieces of plastic. Also, we had news coverage by abc7. This week we are going to be running events for all of our campaigns. So today, we did a fundraising event with our Basic Needs Campaign to raise money for the City Food Bank and we raised over \$200. We are also going to be doing a voter registration table with our new voters project and our plastic project is going to be collecting photo petitions from students and going into Westwood to get support from local small businesses. Next week, we are kicking off our pledge fundraising drive where we will be all over campus individually signing up 1100 students to sign up for our \$10 CALPIRG activity fee which allows for us to have political power, staff training and resources to win all of our big campaigns. Thank you for listening."

## **VIII. Officer Reports**

A. President

King

- This week I had a meeting with the Chief Justice of the Judicial Board. He didn't know that we had made a Judicial Board appointment so he hasn't actually met with Adam Thaw so I let him know. We are still missing four appointments for the Judicial Board so I will be working on that this week. I do have two individuals that will be applying so we will work with ARC to make sure they get interviewed.
- I had a couple meetings with a couple other council members regarding discussion of an ASUCLA BOD appointment which we will be talking about further in the executive session.
- I had a cabinet meeting where we went over some of our plans and talked about general staff applications. We got approx 53 applications so we will be going through those.
- I am still looking for at least 3 members for the Student Conduct COmmittee. They are not stipend positions but they do very important work.

B. Internal Vice President

Le

- For ARC, we interviewed a few appointees this week. Not as much because we do have our whole academic senate. There is still one more position left to interview for but most of our academic center is full so we didn't have too many applications.
- I think Juan sent us all an email that we still need more applications so please advertise that to the students. There was also a slight issue with the appointment system so if you have heard of students who applied but have not heard back from ARC please let me know.
- Within the office, we held our IVP retreat this Saturday which was really fun for directors to get to know each other.
- We are getting involved with the ASUCLA T-shirt contest that we do yearly. So my student direct student involvement directors are working with ASUCLA right now to see how we can get involved.
- Our transparency and accessibility committee are working on graphics for transparency within the office and they are actually in this meeting right now to summarize key points for the student body.
- My education accessibility committee is working on educational posts and reminders for deadlines for enrollment.
- Our internship application deadline was extended to Oct. 14th so if you know anyone who wants to apply please encourage them too.

C. External Vice President

Johnson

- We had our weekly staff meeting where Teachers of America came and gave a similar presentation as well as having a Care Route come and speak as well.
- We also had a meeting with Ignite to discuss an action item that they are focusing on for this year. I am sure you guys will be hearing about that very very soon.
- We stayed up late last night with my team to work on a resolution that we will be presenting to you all very soon and I mentioned briefly in today's meeting with a few of you guys in terms of a call off action and a request of removal of some council members within LA that decided to make outrageously disrespectful and ignorance harmful comments and we were exposes and so my team is making a letter and graphic for that.
- My local team is working with SWC for an event taking place next week on the 20th.

D. General Representative 1
